PROFILE

Aspiring Data Science student with a strong foundation in Python, SQL, Statistics, Machine Learning, & Data Analytics. Skilled in data preprocessing, exploratory data analysis (EDA), data visualization, and predictive modeling using real-world datasets. Seeking a Data Science or Machine Learning internship to apply analytical and problem-solving skills in solving business challenges.

EDUCATION

B.Tech in CSE (Data Science): D. Y. Patil Agriculture & Technical University, Talasande

CGPA: 9.01

Aug 2024 – May 2027

Diploma in Computer Science: Dr. Bapuji Salunkhe Institute of Engineering & Technology, Kolhapur

Percentage: 83.66%

Jun 2021 – Mar 2024

10th Standard — Symbolic International School, CBSE Pattern

Percentage: 75%

Mar 2021

TECHNICAL SKILLS

- **Languages:** Python, SQL, R Programming, C++, HTML, CSS
- **Statistics & Mathematics:** Probability, Descriptive Statistics, Hypothesis Testing, Regression Analysis
- **Machine Learning & Deep Learning:** Supervised & Unsupervised Learning, Model Evaluation (Accuracy, Precision, Recall, F1-score), Regression, Classification, Clustering
- **Data Analysis & Visualization:** NumPy, Pandas, Matplotlib, Seaborn, Power BI, Excel
- **Databases:** MySQL
- **Other:** Data Cleaning, ETL Pipelines, Dashboarding

PROJECTS

- **IoT-Based Drink & Drive Detection System with Machine Learning**
 - Developed an IoT-based drink-and-drive detection system using alcohol sensors and machine learning.
 - Trained ML classification models achieving 92% accuracy in detecting drunk driving behavior using real-time sensor data.
- **Online Blood Bank Management System with Automated E-Certificate**
 - Developed a web-based Blood Bank Management System using HTML, CSS, PHP, and MySQL to manage donor registration, blood inventory, and hospital requests.
 - Designed an automated e-certificate generation system for verified blood donors.
- **AR-Based Smart Hospital Navigation System**
 - Developed an AR navigation system to guide users inside hospital buildings.
 - Enhanced patient experience by reducing navigation time and hospital staff dependency.

AWARDS

- Merit Scholarship — Sou. Shantadevi Scholarship, awarded for outstanding academic performance in the annual examination

CERTIFICATIONS

- Machine Learning Using Python — Simplilearn (Oct 2025)
- Data Analytics Job Simulation — Deloitte (Jan 2026)
- Python for Data Science — IBM (Dec 2025)
- Microsoft Certified: Power Platform Fundamentals — Microsoft (Jul 2026)
- Get Started with Databricks for Generative AI — Simplilearn x Databricks (Jun 2026)

EXPERIENCE

- **Domain IT Service** **During Diploma (Jun 2023)**
Completed industrial training focused on Python programming as part of the Diploma curriculum.

HACKATHONS

- **Smart India Hackathon (SIH) -Selected at College Level**
Project: Empowering Gram Panchayats to Manage Daily Operation and Maintenance of Rural Piped Water Supply
- **Spark2K26 Hackathon — Annasaheb Dange College of Engineering**
Project: AR-Based Smart Hospital Navigation & Patient Assistance System
